

Season 2009

Important information for all referees

Registration

FFT/Electronic

All referees need to renew their FFT electronic registration, before they can be appointed. To do this go to the FFT website, sign into the electronic system with the password you used last year and then select "Update Availability" from the menu on the left-hand side of the page. Make any changes you need, to the information on the page and click Update Availability. This will let me know you are available for appointments for the coming season.

FFA

Referees also need to renew their FFA registration. This has to be done on the prescribed form. Pre-populated forms will be available at the Seminar and at subsequent training and coaching sessions. A new bank-account details form is also required.

Seminar

The annual seminar is on Sunday February 8th at Campbell Town. All referees are expected to attend. Please let me know if you require bus transport to Campbell Town. Please register using this link, so I know who's coming.

Annual

[Seminar 2009](#)

Training
